NATIONWIDE PHARMACY STORE INVENTORY

Case Study: Pharmacy Inventory – Pharmacy Chain

A large pharmacy chain needed an inventory solution to **consolidate all the various data** from different inventory companies, which was causing issues with reporting

NATIONWIDE PHARMACY STORE INVENTORY

Case Study: Pharmacy Inventory – Pharmacy Chain

A large pharmacy chain that focuses on growth, not in numbers, but stature and quality, required the support of RGIS. The company is comprised of over 70 unique pharmacies across the country, with plans to grow through a strategic and careful acquisition plan.

REQUIREMENT

The pharmacy chain needed an inventory solution to **consolidate their inventory data**, rather than using multiple pharmacy stocktaking companies, so required RGIS to provide the following:

- Experience within a **pharmacy environment**
- **National coverage**
- **A tailored, customized report** for all branches
- **Financial valuations**
- **Line and category reports**

SOLUTION

The pharmacy chain partnered with RGIS to complete the **pharmacy inventory project**, and provided the following:

- All branch managers were contacted to **discuss preparation required** prior to the counts
- **Specific reporting** outcomes were agreed upon
- All branches were scheduled within a set time frame
- **Accuracy checks** were completed at all branches

RESULTS

The pharmacy chain found by outsourcing the **pharmacy inventory project** to RGIS, the following results were achieved:

- There was **fluid reporting** across all branches
- Billing was simplified as it was coming from one source
- **Accuracy levels were increased** across all branches
- Head corporate office had access to the data they required from a **consolidated report**, rather than having to approach individual branches

By partnering with RGIS, the pharmacy chain had **fluid reporting across all branches**, and headquarters office had access to the data they required from a **consolidated report**
